State Corporation Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be held at 9 a.m. Thursday, February 18, in the Conservation Division hearing room, third floor, 200 Colorado Derby Building, 202 W. 1st, Wichita, to consider the adoption of proposed permanent regulations for the conservation of crude

oil and natural gas.

The period of 30 days notice from the date of this publication to the date of the public hearing constitutes a public comment period for the purpose of receiving written public comments on the proposed rules and regulations. Comments may be submitted to the State Corporation Commission, John McCannon, Assistant General Counsel, 200 Colorado Derby Building, 202 W. 1st, Wichita 67202.

Copies of the proposed regulations and the economic impact statements may be obtained at the Wichita address. Persons requesting a copy of the proposed regulations and economic impact statements, in accordance with K.S.A. 45-219, will be required to compensate the State Corporation Commission for the cost of reproduction. All interested parties will be given a reasonable opportunity at the hearing to present their views orally or in writing in regard to the adoption of the proposed regulations.

All written or oral comments submitted by interested parties on or before February 18 will be considered by the commission as a basis for making changes to these

proposed permanent regulations.

The following is a brief summary of the proposed regulations and economic impact statements:

K.A.R. 82-3-401a. This new regulation allows operators of enhanced recovery projects the alternative of providing notice on a project basis. The initial notice must be published in the official county newspaper of each county where the project is located. In addition, the operator must mail notice to each operator, or lessee of record, and each owner of record of the mineral rights of unleased acreage within a one-half mile radius of the project boundary and each landowner within the project boundaries.

A memorandum of notification containing the information set out in the published notice must be filed with the register of deeds in the counties where the project is located. This is to inform subsequent landowners within the project acreage that it is part of an enhanced recovery project.

Subsequent applications for additional injection wells within the project boundary may be noticed by pub-

lication only.

Economic Impact: This alternative notification procedure for enhanced recovery projects will allow operators of large enhanced recovery projects to save the expense of continual record search and mailing notice as additional wells in a project are added. There will be savings to industry and no additional cost to the agency.

K.A.R. 82-3-401. This amendment allows the use of area notice for enhanced recovery projects as an alternative to using the K.A.R. 82-3-135a notice as each well or group of wells are made part of an enhanced recovery project.

Economic Impact: None

State of Kansas

Board of Nursing

Notice of Hearing on Proposed Administrative Regulations

The Kansas State Board of Nursing will conduct a public hearing on administrative rules and regulations at 9 a.m. Tuesday, February 9, in Room 106, Landon State Office Building, 900 S.W. Jackson, Topeka. All interested parties will be given a reasonable opportunity to present their views orally on the adoption of the proposed regulations during the hearing. The proposed regulations and their economic impact follows:

Fees

K.A.R. 60-4-101, 60-8-101, 60-11-119, and 60-13-101. Payment of fees. With the change of fees, there will be two types of reinstatement, with or without a temporary permit. Temporary permits will be extended to all licensees who need additional time to complete continuing education requirements. With a possible increase in those numbers, it is necessary to have additional moneys to cover the clerical and mailing costs which may be incurred. An inactive license fee will be also be added for those who request an inactive license versus letting the license lapse. In K.A.R. 60-8-101, a fee was established for continuing education providerships for mental health technicians.

K.A.R. 60-4-103. Fees and travel expenses for school accreditation and approval of continuing education providers. The fee for approval of single continuing nursing education offerings was increased.

The economic impact on licensees with regard to the temporary permit should be positive. Currently, an individual is unable to be employed until a license or authorization is reinstated. By being able to get the permit to resume work, the individual will not lose income or be lost from the work force. In addition, it may prevent the licensee, who may still continue to work without a license, to have to pay an administrative fine for working unlicensed. There will be added clerical time used for processing the permits as well as additional mailing costs for the agency. No additional staff should have to be added at this time.

Reinstatement

K.A.R. 60-3-104, Reinstatement of license after revocation; and K.A.R. 60-7-104, Reinstatement of license. The time period a nurse or licensed mental health technician has to wait to ask for reinstatement after revocation is now one year. In some cases this is a very short period. It was determined that the time period should not be set in regulation but left as part of the disciplinary process. In K.A.R. 60-7-104, additional flexibility in reinstating for mental health technicians has been added. The rest of the changes is language update.

The changes should have minimal economic impact.

Temporary Certification

K.A.R. 60-11-118. Temporary certification to practice. The regulation allows for a temporary certification for the advanced registered nurse practitioner who

may need additional time in completing the application process for certification.

In allowing the temporary certification, individuals will not be delayed in securing employment in an advanced role because of the sometimes lengthy application process for certification. This would assist the licensee. There would be little or no impact on the agency.

Inactive License

K.A.R. 60-3-11 and 60-7-108. These new regulations establish for nurses and licensed mental health technicians the avenue to place a license on inactive status rather than letting it lapse. A one-time fee would be changed.

There would be some increase in clerical activity, but the current computer system is programmed to assist with the process. There would also be some increased mailing costs. Except for the minimum cost to the licensee, there would be no economic impact on licensees.

Licensure

K.A.R. 60-3-101. Licensure. Most of the changes in this regulation are language revisions. One new section has been added to require licensure candidates with learning disabilities to present documentation as to the disability.

There will be no economic impact on licensure candidates or the agency.

Advanced Registered Nurse Practitioner

K.A.R. 60-11-103. Qualifications of advanced registered nurse practitioners. Other than slight language revisions, the main change was to add that having a higher degree than master's in nursing would qualify a nurse for certification as an advanced registered nurse practitioner.

This change in the regulation would be positive for the few nurses who might have a doctorate in nursing but not the master's degree. There would be no economic impact on the agency.

Continuing Nursing Education

K.A.R. 60-9-105. **Definitions.** Several new definitions were added to increase understanding of continuing nursing education for the licensee. Other new definitions were with regard to the continuing nursing education providerships.

There should be no economic impact on licensees, providerships, or the agency.

Education

K.A.R. 60-1-102. Approval procedure. Additional explanation of the requirements for approval of a school of nursing have been added to this regulation. The information has been in agency policy and is being moved into regulation.

K.A.R. 60-1-103. Discontinuing a school of nursing. The regulation is being simplified and now only requires a plan for disposition of the school records.

K.A.R. 60-1-104. Definitions. This is a new regulation setting out definitions for schools of nursing. The definitions had been in agency policy and are currently being utilized by the schools.

There should be no economic impact on the schools

of nursing in Kansas or the agency.

Public comments regarding the regulations may be given at the hearing or written comments may be submitted to the Board of Nursing. Complete copies of the permanent regulations are available upon request from the Kansas State Board of Nursing, Suite 551-S, Landon State Office Building, 900 S.W. Jackson, Topeka 66612-1230, (913) 296-5752.
